Listing of the Claims

This listing of claims will replace all prior versions, and listings, of the claims in the application.

1. (Original) A wing for a compound helicopter having a lifting rotor, comprising a plurality of wing elements of which at least one wing element is moveable to any position from a first position to a second position.
2. (Original) A wing according to Claim 1, further comprising means for moving the at least one wing element.
3. (Currently Amended) A wing according to Claim 1 ~~or Claim 2~~, which the at least one moveable wing element is rotatable.
4. (Original) A wing according to Claim 3, in which at least one rotatable wing element is mounted on a driven shaft.
5. (Original) A wing according to Claim 3, in which the at least one rotatable wing element is mounted on at least one driven rotary bearing.
6. (Original) A wing according to Claim 5, in which the at least one rotatable wing element comprises a shaft for supporting a pylon or wing tip end piece.
7. (Original) A wing according to Claim 6, in which the at least one rotatable wing element is provided with a slot for receipt of a portion of the pylon during their rotation.
8. (Cancelled)
9. (Original) A compound helicopter having a lifting rotor and horizontal wings on opposite sides of the fuselage in which each wing comprises a plurality of wing elements of

which at least one wing element is moveable to any position from a first position to a second position.

10. (Original) A compound helicopter according to Claim 9, in which the at least one wing element is rotatable.

11. (Currently Amended) A compound helicopter according to Claim 10, in which the wing elements are independently rotatable from each other ~~whereby to tend to tend to~~ counteract torque acting on the helicopter.

12. (Currently Amended) A compound helicopter according to ~~any of~~ Claim 9 to 11, in which each wing is provided with a wing folding mechanism ~~whereby to fold each wing in a position substantially parallel to and adjacent to the fuselage.~~

~~14~~13. (Currently Amended) A compound helicopter, comprising the wing of ~~any of~~ Claim 1 to 8.

15. (Cancelled)
